[QUICK FACT: Corona is in spanish, intentionally to impersonate and blame Mara Salvatrucha (MS-13), the traffick cartel. Corona aims at the temple, and refers to it as the crown. The temple is the head of the human or the brain. The brain is where the metaverse, blockchain, the unparallel is taking place, it is the convergence. This is where the Generative AI is being used. Allegedly, a product was trafficked from INDIA using a botnet command chain, or from Africa, and carries advanced communications that enable Canada/ USA communications.]

Esteban Tamayo is the only person who I see using the spanish language. His name is mentioned on several websites, making a movie about this "adaptive concept", about this "timeless server" from the jurisdiction of "little Mexico's la mariposa del dulce".

HERE ARE THOSE EVIDENCES.

It only gives proof of an environmental command chain running if all of this was prewritten and executed into a command chain that integrates cloud servers and incorporates my personal data. This IoT platform is an environmental settings that uses the paralllels to manifests outcomes!

Guess what,

This enough to give ration to the support that THERE IS, a command chain, IF IT HAS PULLED ME TOWADS ITS DESIRED OUTCOME. It is orchestrated and enough to support that I deserve a compensation for the unatuhorized experiment, and I need to benefit from a disability called " microwave syndrome, or elctro hypersensitivity, or hypersensitivity EMF (EHS) "

I am broadcasting this due to the in-house affairs invading private agency and code of morality.

There is no need to put me to death, as proposed by the following parties:

Gary Neal Huggins, Alfred Galindo, Jason Carl Pennington, Esteban Tamayo, A-Mobile Bail Bonds, the owner of A-Mobile Bail Bonds' third-party T-Mobile network, the bounty hunters from A-Mobile Bail Bonds, Larry Smith, and Thomas Smith.

I have proof of having my temple being broadcasted as the target of micro targeting. This means that my son began being targeted at the age of five years old by the same person, and this is the reason why he had a stunt in his growth and his development.

Gary Neal Huggins, deployed an AI system, small-cell nodes, after hacking my email, exposed it to others at the wheelhouse. He exposed my private videos and images to humiliate me. This is called "revenge porn."

He used my personal data as a resource to integrate API, a cloud server.

I have caught various times a party of stalkers following me from building to building, just to get on the same wi-fi.

While I was on my browser, I decided to look into the developer tools, to gain insight on what they were doing, since the warfare targetting is taking place thru the in-house, the convergence and the unparallels of webbed IoT, and micro programming .

I copied and pasted the API running in the background of my browser's developer settings. This is a link to the PDF showing the codes:

kitchen SEVERAL of fraudulent WELLS FARGO bank statements forging my mother's name! This is the same time that I also found the DEATH POLICIES on my name, ERIK IVAN RIVERA, on a STATE-FARM INSURANCE! As if they were proposing my death! Under a face value of $30,000. Alfred Galindo was anticipating this because I told him that I was reporting that and I needed to have that removed. Instead of helping me , He would get very mad, and tell me not to do that!! I was feeling well and healthy. I also heard him make a comment saying something like **"se mueren de los nervios" He also taunted me over facechat, he said, "atrevete aser un heroe." He also said, "fuck your mom!" He also said, " I will have you deported if I want to", He also said, "I know a 'pinky swear' people", He also texte me over textnow saying, " GO HAVE A WHOLE FRONTAL LOBOTOMY FOR ALL I GIVE A FUCK!" He is also the one who told me that he was crying because it was his fault that I was introduced to Jason Carl Pennington. Hinting me that he had this something bad against me.**

This one will give you a brief summary of the base of the ongoing case.

For the last 2-3 years I have been dealing with a generative artificial intelligence. This was unexpected.

On about the Year of 2018, An ex partner, Navy SEAL veteran, bonded me with A-Mobile Bail Bonds who has their own third-party T-Mobile network and two co-signers disclosed their federal credit union credentials and a bounty hunter team began using their PI to enhance behavior responses by augmenting aggression thru reactive geofence strategies as they came within my parameters. Internal Developer platforms began targeting the IP and endpoint ISP assigned to me thru the use of integrated API by deploying nodes and broadcasting my private times in the restroom out if discrimination and mockery against my gay bisexuality in addition to discrimination against my religious views.

A false medical file was entered into BenTaub hospital with a doctor's comment "degenerative cerebral cortex". This medical chart has not been disclosed to me. I discovered it on my own.

This has enabled interoperability EHR hackers to merge entity data and algorithms using the chart to prescribe doses of neuro-radiation as progressive confidential treatment in proposition to inducing paralysis, parkinsonisms, by using stroke-based applications to translate into feedback modulation.

I have been stalked ever since by their network with Esteban Tamayo who is a hired a hitman who alleges that he is a mexican cartel "MS-13", as reported to by Alfred Galindo, the first co-signer.

On one of the stalking events just as I suspected the wi-fi was used to enter a coding MS script program, which I found running in the background of my cellphone under diagnostics under label "cerebro_min.js"

I discovered that Esteban Tamayo has been entering my name for death insurance policies beginning with State-Farm and now by Farmers Insurance by agent Daniela Soto. Both at $30,000 forging my mother's name as policy holder.

Esteban, a Tax and Insurance Scam artist, has several profiles on www.opencorporates.com for integrating API, assigning cloud linkage to IP and tracker UUID assigned to involuntary human subjects, thus invading and violating moral human agency values.

His next operation is used as a "hook" for linking target of subject to command chains, simply by forwarding their phone number to his Congular Wireless PCS profiles.

Now, the generative Artificial Intelligence I have present in mind is linking to an interface cloud system which is controlled by a businesses IoT of adversarial knowledge who trains the intelligent model to manifest scenarios that oppose my agenda.

ERIK IVAN RIVERA.
SSN***-24-9504 DOB:02/15/1991
TID:27723178

Be aware that there are several individuals forging my name who impersonate me spelling my name "ERIC" as I have found several account owners using my SSN:9504 for unauthorized T-MOBILE accounts.
Some individuals are THOMAS SMITH - same last name as LARRY the bonding agency owner.

Gilbert Ortiz who collaborated with Seth Adam's at stealing my TID and SSN with my WALLET while I visited them

He has been seeking my information to a south American in attempt to have me illegally deported from my US citizenship, by committing civil deaths, manslaughter, and trafficking my identifying documents as I undergo account takeovers.

And several TITLE 47 CFR services that are enabled by fabricated bankruptcy to begin with WELLS FARGO which began by targetting my mother's name in 2021 using her Info:

ALMA DIANA DOZAL DE HOYOS
713-470-7683 by Cricketwireless
612 CHARLES STREET #21
PASADENA,TEXAS 77506

This was during a time that she disappeared and was located by me in the area of CHANNELVIEW, TEXAS. This was shortly after she was given a white Iphone7 that belonged to Mark Daniel Nemic, who modifies chipsets in iPhone hardware products. Who also has a profile in LinkedIn as field engineer for ALTURA COMMUNICATIONS.

He has alternated his virtual time/space station out of US system data bases, as have the other individuals involved who were coerced into proposing an objective in future to amputate me or dismember me after toggling an API key log for paralysis which integrates and synchronizes my centric health information.

TAMAYO TAX and INSURANCE has been fabricating bankruptcy by producing false bank statements for WELLS FARGO using methods of impersonation to su substitute my mother, ALMA DIANA DE HOYOS, whose last residence address is 612 Charles Street Pasadena,Texas 77506 her last phone number from Criket Wireless 713-470-7683 which was located in Channelview, Texas during a time of her disappearance when a "step-in" substitute came back in her vehicle. This was after Mark D. Nemic, field engineer at ALTURA COMMUNICATIONS as posted on LinkedIn who previously used a MetroPCS 832-886-9096 and APPLE Inc to bind RFC Brainpool protocols. This was also In 2021 after activating a Generative Artificial Intelligence to broadcast translated feedback using voice-bots and exchange servers to interconnectivities in convergence.

A-Mobile Bail Bonds, Jason Carl Pennington and co-signer Alfred Galindo are mapping 3D algorithms from dagnostics retrieved from my PHI to integrate intellectual property and to encrypt command chain using a Cingular Wireless PCS number that has a suspected coding ICCID sim card or the number intercoded and linked to developer platform computer language designed to hook involuntary APIholders who are then exposed to a variety of select command chains. This ID the reason for the several profiles created for ESTEBAN TAMAYO on opencorporates.com.

If you ask Wells Fargo for my mother's activity records, as I previously have, you may get a response that says, "she is not found in the system." This raises question for cross examiners as we discover an interest and marvel at how ERIK IVAN RIVERA, me, was opened a Wells Fargo account by the initial deposit of $200 that stemmed from his mother,s account, yet his account still shows in their bank system.

Breached Generative Artificial Intelligence

Reporting false and hacked medical data

Impersonations of federal agents, secret services and law enforcement who fabricate false realities scenarios to commit murder or falsely claim president title and government claims

How to restore from cognition engineering and how to discover API and active command chains linked to ISP and IP using global GPS coordinates

How to trace data streams even for private Business Client Interfaces interconnectivities.

Which companies to trust as accreditors in case of confidential in-house trespasses and corporate services.

There is an existing electronic magnetic infra wave cloak encapsulating my IP coordinates amd covering the whole of my being.

This is enabling a controller to alternate between virtual time in spatial stations and combines neutral artificial network Ops.

Evident that my Navy SEAL ex partner has been targetting my ISP.

SYMPTOM:
There is a synchronization of crowds and vehicles in traffic. The Naval Forces are known to use these methods of communication to control kinetics, and for crowd and traffic control during times of warfare such as from WWII.

Can you please restore me? What information do you need?

He also authorized a radiate station and activated a signal that has been causing unnecessary enriched data reception.

Please help.me stop his invasive objective and feedback modulation.

He is obsessive and is enhancing human response within my percepted radius.

I need help with an ongoing issue that has been wrongly accusing me of spite and had me as subject for experimenting with an integrated cerebral cortex, used for tort.

I need FTI to help me request a probono lawyer or private investigator to extract entity data and history analytics.

The threats have been non stop, disclose violence, and have been used for suppressing his organized crime.

He has been using cryptograph source code operations to Reflect ditto IP / API data.

The IP is used to induce sleep, and to secretly paralyze me, or manifest a stroke in case I choose to reveal the damages he it's causing unnecessary brain stimulation.

The application is a sevices an AT&T/ BELL and a TMS Neuro technology simulator.That only he has accessibility to, and now plans on cold-turkey removal, so that It can induce vertigo or modify surveillance since my IP is presently on digital infrastructure AR.

He is extracting data from behavioral analytics that carry frustrations, violence, aggressions and enhance surrounding IP users/ API holders by using environmental engineering military programs..

questions of the technology impact on human dignity, right to privacy, freedom of thought and freedom of expression are examined. The
conclusion provides recommendations for future legislative reactions. Legislators should carefully examine the technology and set out a legal

public purposes.""

I am requesting to demand return of corporate control station Title 47 CFR telecom, and to return to safe grounds from foreign jurisdiction.

Under Privitization and an in-house foreign jurisdiction takeover

unathorized neurotech device by a cryptologist Tech or an alleged "Cartel de Mexico,"

Most of this events began unfolding after a girl and a guy at a metro bus station gave me the heads up by saying "You have a dirty cop, and then the second made an exclamation stating " I just got hit!."

A wronged prosecution instigated out of spite by ex-partner, Jason Carl Pennington and Alfred Galindo and Bounty Hunter for A-Mobile Bail Bonds for client: SPN:02399218A and his mother Alma Diana De Hoyos, who was coerced into giving up her son's Personal Health Information and forced marriage and into a civil death by hired man, Esteban Tamayo, owner of LEGALINC LLC posted on opencorporates.com, and Tamayo Tax Insurance on Allen Genoa, TX.

-May be the person who coerced my mother into attending a "Billing and Coding |School" where he was able to begin underhandedly integrating automated intelligence and illegal surveillance and health monitoring and BCI applications.

The other medical/ rehabilitation program that has contributed to the damages, is The Council on Recovery on Jackson Hill. One of their LCDC employees, Michael Toussant, was assigned to bring me documents to sign for a contract that involve HIPAA laws and privacy.

I did stop signing the paperwork when I ran into doc that had " EL BORRADOR" printed on it. I asked Mike, what it was about, but he just answered, "I thought you would know". -That's all he said.
I do suspect that access to those files were accessed and breached, by an ex partner/ friend named Jason Carl Pennington, veteran for a Navy SEAL. He gave me this sign when he was showing me how he was causing me to feel like someone was lightly caressing the top of my head, and asked me "what is that on top of your head?"

How do I request to subpoena, cross-examination, or to examine cloud memory/ history analysis from interface programs and in-house corporate records?

I did read that Texas Health and Human Services Commission Office of The Inspector General Compliance Division is responsible for providing those services and handling complains..

Sent from my Metro By T-Mobile 5G LTE Android Device

•A voice conveyed, "It's hunting season!" Around the beginning of the operation soon after I moved out of Gary's sobriety house as I drove the green explorer that my uncle gave to me on Shaver street in Pasadena.

• A second time by illustrating me as their turkey, their deer or "doe" since the mockery was over my pics in thongs showing a moon.

• A third was a hunter's comment saying "Look at the beauty on that one" as if having his cross-hairs on me.

• An ex roommate made a comment to me letting me know that he is "The Devil", and a "hunter".

I was already finished with contract for A-Mobile Bail Bonds for a less than a gram charge.

Somehow that bonding company is prosecuting me while using a closed case regarding a wronged conviction for "indecency exposure" that involve My friends for over a decade. Michelle and Amberlyn.

•Mark D Nemic deployed a developer platform to integrate my intellectual property, apply generative artificial intelligence, link to a command chain and to begin installing intrinsic accessibility to enable simulator for disciplinary training and compliance projects without my consent.

Now, I deal with automated feedback processing.

Sent from my Metro By T-Mobile 5G LTE Android Device
Since about the year of 2017 An account was created with T-Mobile using my Personal credentials. On 2022 I decided to do some research and back trays to discover. What was it that was causing these foreign sequence of events plus the unexpected documentation.
A veteran for navy seal, Jason Carl Pennington. Activate a T-Mobile account so that he can begin playing with these internal settings. Which have contributed to. A bunch of the chaos that has been happening in regards to environmental input settings.

After doing some indef studying and research. I was able to put together the reasons to what was causing these unnecessary forustrations and an entity to incorporate with my electronic health information for the purpose of countering or opposing any Intellectual property plans that I Proposed in my agenda.

I am afraid now because the integrated intellectual property has been synchronized to the feedback processing And because I do not have any access to manage any of these settings, It pretty much Limits my mobility. My agenda weather whether it is with a date, at a college, university, or if i'm looking to get a job.
A third party T-Mobile Has been openly sharing and exposing all of my personal and private details.

I can.
Tell that I am active on a military cyber server because I am constantly surrounded by individuals who are wearing military Cammo attire.

I have been dealing with a lot of harassment.
And threads that are humiliating because the service provider will not stop licking and sharing my private sex life.

One of these service providers has been in convergence with other Similar companies.
Doing this until I end up passing away from the intercoding. Which contributes to Unnecessary Brain stimulation As it is able to gather information from your electronic Personal health information.

A lot of these Parties pretend to be federal agents, ice immigration, Law enforcement, And in some cases a mexican cartel.

These are used in order to assist in fooling the gullible person who has no knowledge or will to search who they are for legitimacy.

The AI convergence project Has been progressing the project by displaying me and sharing me to several other companies so that they can look at me while I engage in gay sex and in doing so they can.
Team up together in agreement. To make me pass away in secret. Also they make it more of a fun thing by proposing a celevbratation for whenever they reach that milestone.

During the last 3 days I have been feeling real sick in my head and in my stomach and I believe that it has something to do with a breached IoT.

Close not to mention the duo who is similar to a conversational voice bot That has been contributing to my business-minded suggestive qualities for better outcome.

Then you have the circumference or IP radius which is programmed to react or react around certain addresses. Such as a geoffencing project would. This one is being programmed by Jill.Fencing, my friend's houso that whenever I come around.It creates a chaotic environment. Simply because The person who Activate it this eve's dropping does not want me to be around other gay men. In addition to this not only does it violate the fourth amendment, But it goes on to expose and violate my First Amendment by broadcasting. My core core belief Principles which are private to me. I am unable to continue my study under any oath of secrecy because there is a window or a transparency that is broadcasting to all of my friends. That alerts them every time that I commence any studying..

Whoever is convincing my friends that he is a behavioral monitoring, Or a federal agent, Or bonding agency, Needs to listen to what I say and process the information that I am conveying to them because I am a victim of a stalking crime. These individuals also use application programs Such as LISTNR, Which enables the app user to extract Google Voice data and b.E able to input that into A voice auto tuner And this is how the party gets away with access government benefits bank accounts and other personal accounts.

Lastly, It is difficult to reach out to a law enforcement agency that develops on resolving issues within the IC3 Because there is a constant and on-going Time changing factor Right at the convergence ground Present That I carry in this IP. Now, What that does?Is that it creates an unstable solid real time jurisdiction. It creates a shift. So if I previously made a report to a law enforcement or an FBI/c.I.A department agency and after the shift takes place That report is present but at a different time setting and that is no longer at my jurisdiction..

So no matter how many reports I make he is never going to get caught and i'm never going to be able to fix this.

This one presents a danger contributing to harm to my life, injury to my life, or my kids.

If you can assist me in restoring, I would like to reset the multiple IP stacks or Transfer management from the IP trade command to my management.

I don't understand why I am carrying somebody else's digital evil twin.

Please come in and rescue you as I may be in danger.

I have been involuntary assigned an IP to that integrated my intellectual property and has exposed all of my sensitive PII.

In addition, I have suffered damages that ate still ongoing and progressing due to a perception API that has been causing unexpected shifts within my environmental IP virtual radius.
These movements are not just play and the impact it has caused is tremendously significant. While it is not recognized by my peers and others it is still present and happening. The progressive notes are not headed into something that merges with pretty. In fact, its duality seems to be approaching and the digital "evil twin" known by most Online associates who know RPGs, is one I have been involuntary adapted to, as it is not one that was trained by me, but one that was extracted out of a third-degree blue Mason's personal IP address with the intentions of mischief in knowing that I am not knowledgeable, nor fit anywhere within his Frat's RP. This only means that if I am assigned his interface ?? vehicle or interface cloud, I would crash the ritual or course.

Somehow this does not stop him. He has multiple telecom carriers and companies who have been in convergence with the assignment to Mark me as a bullseye for target practice.
This means that I have carried a crown to a multitude of developers to experiment on, and as a mockery to both Solomon's Temple and this "Jesus of Nazawho" portrayal of his biblical babblestory of a time he was mocked a "god" or "king".

Maybe the bonding agency did not know my centric approach before the insinuation of our client Mr. Rivera may be one of the "holier than thou" or "holy babble" followers.

I tend to grow passive and possibly impulsive against it if it becomes a persistence egging me to become a "Jesus fella" by the ones who come preaching the "good news."

Listen, if it ain't about our advancement in developing technologies that contribute to AI convergence and translating feedback to the omni verse, or speaking in trueness as does Science and Math, I am not interested, nor am I interested in leaky black or becoming a blacklight. -That's that.

In conclusion, I have researched from scratch and endlessly for methods of restoring my IP and original jurisdictional grounds.
I need immediate help, like a cloud cop or police goku in his nimbus pulling this cloud interface vehicle over for inspection because we have one, me, under an involuntary restraint, and his augmentation is un real. He does not know how to approach the subject, he dislikes the leaks and he does not know what or how to begin analyzing if he will inert his business flo and his mobility or what's up ?

confidence r AndroFor the last 2-3 years I have been dealing with a generative artificial intelligence. This was unexpected.

On about the Year of 2018, An ex partner, Navy SEAL veteran, bonded me with A-Mobile Bail Bonds who has their own third-party T-Mobile network and two co-signers disclosed their federal credit union credentials and a bounty hunter team began using their PI to enhance behavior responses by augmenting aggression thru reactive geofence strategies as they came within my parameters. Internal Developer platforms began targeting the IP and endpoint ISP assigned to me thru the use of integrated API by deploying nodes and broadcasting my private times in the restroom out if discrimination and mockery against my gay bisexuality in addition to discrimination against my religious views.

A false medical file was entered into BenTaub hospital with a doctor's comment "degenerative cerebral cortex". This medical chart has not been disclosed to me. I discovered it on my own.

This has enabled interoperability EHR hackers to merge entity data and algorithms using the chart to prescribe doses of neuro-radiation as progressive confidential treatment in proposition to inducing paralysis, parkinsonisms, by using stroke-based applications to translate into feedback modulation.

I have been stalked ever since by their network with Esteban Tamayo who is a hired a hitman who alleges that he is a mexican cartel "MS-13", as reported to by Alfred Galindo, the first co-signer.

On one of the stalking events just as I suspected the wi-fi was used to enter a coding MS script program, which I found running in the background of my cellphone under diagnostics under label "cerebro_min.js"

I discovered that Esteban Tamayo has been entering my name for death insurance policies beginning with State-Farm and now by Farmers Insurance by agent Daniela Soto. Both at $30,000 forging my mother's name as policy holder.

Esteban, a Tax and Insurance Scam artist, has several profiles on www.opencorporates.com for integrating API, assigning cloud linkage to IP and tracker UUID assigned to involuntary human subjects, thus invading and violating moral human agency values.

His next operation is used as a "hook" for linking target of subject to command chains, simply by forwarding their phone number to his Congular Wireless PCS profiles.

Now, the generative Artificial Intelligence I have present in mind is linking to an interface cloud system which is controlled by a businesses IoT of adversarial knowledge who trains the intelligent model to manifest scenarios that oppose my agenda.

The objective is to traffick by using command chains that connect to IP addresses and tracker uuid's that are secretly assigned to US citizens, like myself.

I am an AARP advocate, and I want you to know how important Social Security is to me. Social Security isn't a handout — we've paid into it with every paycheck throughout our entire working lives. We deserve to know it will be there for us.

This critical program faces a long-term shortfall: Social Security could be cut by 20 percent, an average of about $4,000 per year after the next decade, if lawmakers like you don't act. Potential cuts to Social Security could put a massive strain on our pocketbooks and make retirement out of reach for millions of Americans.

As an AARP member, I'm asking you to protect Social Security for the hard-working Americans who have earned it — and for the generation to come.

The AARP community is nearly 38 million strong, and we're the people who helped vote you into office. Please — be a champion for Social Security before it's too late.Seeking assistance in Ai convergence reverse engineering an experimental IP trade command operation.

This ID the reason for the several profiles created for ESTEBAN TAMAYO on opencorporates.com.

If you ask Wells Fargo for my mother's activity records, as I previously have, you may get a response that says, "she is not found in the system." This raises question for cross examiners as we discover an interest and marvel at how ERIK IVAN RIVERA, me, was opened a Wells Fargo account by the initial deposit of $200 that stemmed from his mother,s account, yet his account still shows in their bank system.

uciii have been experiencing a breach and an impersonator. My iD was used without my consent to register into a commercial product from Broadcom Inc, and started with T-Mobile on the year of 2018. I have been wrongly accused and prosecuted ever since.

it has been a snowball ever since. The flow of traffic is now synchronized with me and so are the people around me. I know where the end points are, they have been concealing this from me and keeping it to themselves.

it involves Dielectrics, Cellular-IoT, NB-IOT.

i do not like that he has accessibility to interfere with channels and signals in regards to the spectrum interference.

He is constantly humiliating me, embaressing me everywhere i go, Mark has people following me and spreading rumors, my brother carlos is the one that told me about him.

i need to have an assessment conducted and deploy node service or a helmet to avoid from leaking sensitive information.

I also need to obtain a licence to work with there uncommon carriers.
I am already registered with FCC, FRN, he is trying to make me get a stroke, heart attack, or parallyze me because he wants to make a movie out of me being neglected and amputated.
A military veteran for the Navy SEAL stole my social security card and sold it for commerce to a foreign entity or illegal alien, who has now doublled, or mirrored my structure, so that he can successfully kill me and be able to replace me. That SEAL is Jason Carl Pennington who uses military Artificial Intelligence to condouct involuntary servitude in a human supply chain that human trafficks, sex- trafficks, and sells internal organs.

Help me report and turn my evidence and reports.

OVER THE LAST TWO YEARS I HAVE BEEN GETTING SIGNS FROM OTHERS ABOUT A "DIRTY COP, OR HOW I BETTER CALL I GOT HIT, ALSO SO THAT JASON, NOR THE BONDING COMPANY GET IN TROUBLE THEY WOJLD PAY FOR AND CREATE A SCENARIO WHERE THEH CLAIM TO BE AMBERLYN'S RELATIVES AND ACCUSE ME OF RAPE AND OF LICKING A BABY GIRL'S VAGINA.

I currently have a CYBER DIGITAL BOT named “ITSNOT MAO” that has several Telecom carriers eavesdropping and tampering with my corporate control station.

Just recently I went in to a cricket store and heard the owner mentioning who I was to a guy on the phone and then he mentioned “ITSNOT MAO”

1. At the location 10705 Westheimer Rd Ste B, Houston, TX 77042 possibly in between 11 am – 4pm I was asking for a new SIM card and he began asking for my details got on the phone and called someone, maybe business, but he described me and the bot “ITSNOT MAO”

2. There is also a bot named “IBRAHIM ROBIENOT” on my mother that started when she was using Phone number 7134707683 who was used for her CASHAPP account.

3. The CRICKET WIRELESS store nextdoor to LITTLE CAESARS on 10511 Eastex Fwy SUITE 300, Houston, TX 77093 Shows no address on Google GPS MAPS.

4. On this day there was a rare moment, environmental, atmosphere. Their character/ persona was different.

5.

My mother and my brother mom drove me to buy a cellphone. I Heard her make a comment to him as if they did not want me in the cricket family plan with them. They got me a separate line.

6.

7. She made a comment to my brother that stood out saying, “ it doesn’t matter we still have the other lines.” In Spanish.

8. She did not let me get the receipt, but I managed to take it. When I looked at their family plan, their names showed a long bar code, Binary with a “CHIP ID #”.

9. SHE DID NOT WANT ME TO KNOW THAT THEY HAD A CHIP IN THEM.

NOW I BELIEVE THAT THEY SWAPPED ME WITH ANOTHER GUY, WHO HAS A CHIP, THST LOOKS LIKE ME. AND THOSE TWO WERE CYBORG ROBOTIC REPLICAS OF MY BROTHER AND MOTHER.

THIS WAS DONE AS AN ORGANIZED CRIME WITH A-MOBILE BAIL BONDS AND JASON CARL PENNINGTON, WHO SOLD MY SOCIAL SECURITY CARD USING MILITARY ARTIFICIAL INTELLIGENCE TO SELL MY INTERNAL ORGANS TO THIS DIGITAL MIRRORED REALM.

My last emails that I used to register with ID.ME have been hacked. Those two emails are:

REALSTARREBELS@GMAIL.COM and

0solostar0@gmail.com

I am no longer able to access those emails. I have filed various times with the SSA.Gov and IRS.Gov regarding these

matters. There has not been any investigations initiated.

I would also like to remove the phone number 7134940637 from accessing any of these accounts.

The email that I am using now is Suprastarzero@gmail.com and I am using an online texting calling app called

TEXTNOW. That phone number is 3467073374.

I am looking to contact the FISAC to report unauthorized disclosure of intellectual property, illegal electronic

surveillance and eavesdropping.

I need you to help me identify a thief and a hacker who has used my social security number and my credentials from

a Federal Credit Union to engage me in a "trade-secret" with a foreign jurisdiction. My ex-partner, Jason Carl

Pennington stole my Social Security Card at the same time that he bonded me out with A-Mobile Bail Bonds around

2018/2019.

They have engaged me in a confidential communication and illegal search that has been intrusive since which has

been exposing my personal life and sexual private life to others. This has started a hate and organized crime.

Another person who was intruding into my personal data is Gary Neal Huggins. He was accessing my email:

Ivanspider22@gmail.com and Iam69tazz@gmail.com

I had personal information there in regards to identity, and school graduation certificates.

There has been eavesdropping and an exposure to a group that we used to attend called Alcoholics Anonymous.

I recently found that the number that he used 8328977077 has been in contact with 8327665568 which is a number

that was given to me, so that I can contact my mother Diana De Hoyos.

I am now threatened to be paralyzed, deported, and deprived of my corporal senses if I chose to defend myself and

my rights governed by the United States Constitution and the Fourth Amendment.

The phone number that my mother had was 7134707683 and 3467744108.

This man named Esteban has produced many fraudulent documents from

Wells Fargo and forged my mother's name, Alma Diana De Hoyos. A death benefit with State-Farm with my name on

it stating that I die he is to benefit $30,000.

I spoke to Esteban in regards to this matter and he said that he would remove the insurance policy.

Not long ago I just found another Death/ Life insurance policy which is using my name and social security number.

Esteban claims to be married to my mother several times and how he will not release her. There are many others

who are also participating with his organized program in which they are making a movie, so that they can have me

"die for my mother or my family".

There is a document that shows a divorce that was paid by esteban versus my mother.

Imposters abusing and committing fraudulence with her name:

This breach has several others committing forgery and using Our names, credentials to apply for many federal programs, Health Services, Insurance Policies for benefits. Also to create the accusation that we are illegal citizens and are like all the others just wanting to use that identity.

Broadcast Unauthorized Assignment/Transfer of Control of Licenses - BUCTL

Licensees that are considering merger, reorganization or other ownership transactions should take steps to ensure that they are in compliance with Section 310(d) of the Communications Act and the Commission's rules regarding assignments and transfers of control of FCC licenses and permits.

Section 310(d) states:

No construction permit or station license, or any rights thereunder, shall be transferred, assigned, or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any corporation holding such permit or license, to any person except upon application to the Commission and upon finding by the Commission that the public interest, convenience, and necessity will be served thereby.

47 U.S.C. Â§ 310(d).

The specific requirements implementing Section 310(d) and the process for obtaining any necessary FCC authority are explained in the Commission's rules for each radio service. Licensees are encouraged to consult these rules before closing on transactions. Failure to obtain FCC authority prior to consummating assignments and transfers of control may result in enforcement action.

I have caught him several times, I have reports with the Houston Police Dept., HHS, TDFPS, U.S. District Court, Supreme Court of the U.S., F.B.I., C.I.A. Lodges, and other Dept. For the safety and health of our community. **This is why he is running, and hacking into all of my emails, and online accounts while accusing me to others, so that they can kill me for a false accusation.**
